Subdivision / Land Development Plan Review Procedure

Proposals for Land Development or Subdivision are to be accepted by the Administration and held until the next meeting of the Planning Commission. Attendance by the Applicant at the meeting is optional, but is encouraged.

The Planning Commission will discuss the scope of the application, and based upon size and/or complexity, and whether it is a major or minor request, will schedule initial review of the application at its next meeting. The Planning Commission will advise the Administration which consultants should attend the discussion meeting to receive comments and interface with the Planning Commission prior to beginning their independent review of the submittal. At this meeting the application will be formally accepted by the Township, and the time frame specified in the Municipal Planning Code commences. The Administration shall determine prior to that meeting that the application is substantially complete and meets the requirements of the Zoning and/or the Land Development and Subdivisions Ordinances.

Formal consideration for either preliminary or preliminary/final recommendation by the Planning Commission will occur at the next regular meeting of the Planning Commission, and after all reviews and recommendations by the consultants have been received by the Planning Commission no later than the Friday preceding the scheduled meeting.
